WINTER/SPRING 2018: Issue 10

Dear All,

I hope you enjoy reading our first newsletter of 2018 which is full of exciting new services and products which we offer our clients.

ECG are extremely pleased and proud to have received RCGP accreditation for our resus training!!

Best Wishes
Jane

You asked for faster BLS training, we delivered!

We understand just how precious your time is in the Practice and we have created the perfect solution for you! Our brand new **Blended Basic Life Support (BLS) & Anaphylaxis Course** is a great way to update your Resuscitation skills in a much more flexible and time efficient manner. The course involves an interactive Online Theory BLS course which includes videos, photos and great explanations and can be completed at your own convenience and then a face to face practical assessment, taking just 45 minutes! Contact us for more details.

Need to update the grab bag in your practice?

**Complete
Emergency Grab
Bags available from
our shop - £225
inclusive of VAT and
delivery!**

Our Blended Basic Life Support Course Feedback

We've had an amazing response so far from our new Blended BLS course. Take a look at some of the feedback we had ...

"This is a very practical, clear and concise e-learning package. One of the best I've seen"

"Very well written course. Videos demonstrate clearly each technique."

"I feel I have learnt more using this online training tool than I have done in a previous group training".

"Really enjoyed it this way. Useful having online info before the practical. "

"Concise – very useful!"

"The practical session after the online course is useful as it cements the knowledge. I prefer this style of training"

"Much more efficient training and I learned more this way"

The overwhelming response was this style of course was really popular. All the staff managed to go through the online course at their own pace and at their own level. Clinical staff undertake the online course at a Level 2 (aligned to CSTF) and non-clinical staff undertake a Level 1 which means the course is relevant to the individual roles within the Practice. The face to face assessment lasts just 45 minutes which means the clinicians can get on with seeing patients, catching up with all their paperwork or completing other training.

Of the delegates that have undertaken the blended learning course, 97% said they feel confident to use their skills.

Give this approach a try and see the flexibility it could give you!

New online courses now available to buy from our website

- Anaphylaxis
- Chaperoning
- Equality & Diversity Essentials
- Health & Safety Essentials
- Managing & Reducing Stress

DATE FOR YOUR DIARY

We are looking forward to exhibiting again at the **Best Practice Show** later this year.

The NAPC's Annual Conference will be held on **17-18 October 2018** at Birmingham NEC and over 5,500 GPs, Practice Managers, Federations, Nurses and CCG professionals attend.

We hope to meet some of you there.

Don't forget to follow us on Twitter to keep up to date on all our news and events @ECG_MK

The ECG Blog

Have you visited our ECG Blog recently?

We publish various articles and items of interest. Topics so far have included our Ten top tips for Basic Life Support and also reasons for using E-learning.

Keep watching...!

Charity Update

We raised over £1320 for our 2017 Charity of the Year, **The UK Sepsis Trust** which we hope will go some way to helping the charity in

continuing to raise the public and healthcare professional's awareness of Sepsis. Through our fundraising events this year we have met many people who have been affected by Sepsis either directly or indirectly and we know that the work that the UK Sepsis Trust do is very valuable to these people. We wish the charity continued success in their campaigns and will continue to spread the word about their work.

~~~~~

Our **MK50 – Saving Lives in MK campaign** has now drawn to a close and would like to thank everyone who took the time to enter the draw.

All the sessions were well received and were well attended with over 175 people coming along to learn how to do CPR and everyone left saying that they felt more confident that they would know what to do if called upon in an emergency but all hoped that they would never have to put this new knowledge to the test!

~~~~~

We are pleased to announce that we have voted for our **2018 Charity of the Year** and this year we are excited to be supporting the **Milton Keynes Hospital Charity**. As a charity their mission is to make a real difference to the experience of patients, their families, and the staff who treat them. Their fundraising enables wards and departments to go over what the NHS provides raising funds for specific, tangible items which supports the work of Milton Keynes Hospital.

We are meeting with Michaela and Hayley from the charity soon to discuss ideas for our fundraising so watch this space for details of what we are going to be up to and ways that you can help!

You can also find us on LinkedIn by searching ECG, why not have a look and connect with us to see what we are up to!

In our next newsletter, we look forward to updating you on the exciting developments our team members are busy working on.
